

NIRUKSHA AKSHITH SANDEEPA

Computer Science & Engineering Undergraduate

A software engineering enthusiast with experience in full stack development. Interested to work within agile teams to deliver high quality software. Always eager to learn new technologies.

EXPERIENCE

Software Engineer Intern, GTN Technologies

December 2024 - June 2025

Developed various features in GTN Admin Terminal V2

Teaching Assistant, Department of Computer Science & Engineering, University of Moratuwa

July 2025 - November 2025

Conducted Database Systems lab sessions, mentored undergraduate students and evaluated assignments and projects.

Department Representative, Department of Computer Science & Engineering, University of Moratuwa

January 2023 - December 2023

Give leadership to the batch, helped to smooth the academic activities as well as organized events.

Web Developer, IEEE Student Branch, University of Moratuwa

November 2023 - November 2024

Contributed to develop websites and designed user interfaces.

PROJECTS

University Event & Community Engagement Mobile App (Ongoing)

React Native | Supabase

Cross platform mobile app that centralises campus events, favourites with reminders, and location based notifications. Includes a unified list and found board and real time, filterable event feeds with offline caching to enhance student engagement and campus communication.

3D Interactive Wind Effect Visualisation System (Ongoing)

Python | Machine Learning | 3D Rendering | CFD

Developing a state of the art real time system that visualizes wind-induced 3D object deformations by combining physics based simulation with machine learning models, enabling intuitive interpretation of complex wind data for urban planning applications.

Luxury Hotel & Restaurant Information Management System

github.com/orgs/Hotel-and-Restaurant-MIS/repositories

React.js | Spring Boot | MySQL | Docker | Google Cloud

Hotel reservations, room reviews, virtual waiter for ordering food, chatbot for customer queries, order management with billing, and hotel staff/room reservation management via multiple applications.

NexusTrust Bank - github.com/NirukshaSandeepa/Banking-System

React.js | Node.js | MySQL

Secure account management, savings account transactions, fixed deposits, loan request, approve loans, generate transaction reports & level access (manager/employee/customer).

IEEE Student Branch Official Website - ieeesb.uom.lk

Next.js | Tailwind CSS

Get information about the IEEE Student Branch, University of Moratuwa

EDUCATION

Bachelor of Science Honors in Engineering in Computer Science & Engineering, University of Moratuwa

2022 - Present

Rahula College, Matara

2007 - 2020

GCE O/L - 9A's | GCE A/L - 3A's

Matara, Sri Lanka

akshith.21@cse.mrt.ac.lk

LinkedIn: linkedin.com/in/niruksha

GitHub : github.com/NirukshaSandeepa

Portfolio: nirukshasandeepa.github.io

Medium : medium.com/@niruksha

SKILLS

Programming Languages

Javascript, Python, Java, C++, Typescript

UI/UX Design | Figma

Front-end Development | Next, React.js

Back-end Development

Spring Boot, GraphQL

Database | MySQL, PostgreSQL

Testing | JUnit, Postman

Cloud | Google Cloud

Version Control | Git

ACHIEVEMENTS

International Chess Rating: 1922

Currently the highest rated chess player from the same age ones in Sri Lanka

Represented Sri Lanka

Represented Sri Lanka at the Asian, Commonwealth Chess Championships

Finalist | Enigma 2024 Hackathon

Created New Hackathon Problems for

MoraXtreme 2023
